Today's excursion to three beach communities with three different personalities resonates with the pride of Huntington Beach's "Surf City USA," the sophistication of Newport Beach's "Colorful Coast," and the quaint artistic village of Laguna Beach's "Artist's Colony." Discover the treasures of our beaches in a whole new way!

First, slide the Beach Boys CD into the player, because you're on your way to the original "Surf City USA", Huntington Beach. This colorful beachside community is the center of the US surfing world. Stroll down Main Street with its hip and eclectic stores, or cross Pacific Coast Highway to "hang ten" in the sand of the Southland beach that's been featured on more postcards than any other.

The experience continues with a southward drive into Newport Beach with its rolling hills, beautiful harbor and elegant lifestyle, making it the Southland's defining icon of seaside style.

Further south, cliffs rise above the ocean colored an incredibly rich shade of blue. You're getting close to the haven known as the "Artist's Colony", beautiful Laguna Beach! Take a walk along Main Beach on your way to the galleries and handiwork shops for which Laguna is famous. Enjoy a cappuccino or ice cream in one of the bistros or cafes along the way.

What are you waiting for? Come raise a glass of sunshine with a nod to art and a wink to sophistication for the Hidden Treasures of the California Coast!
